What is this inspiration online class all about ?

As you probably know, this quote is completely covering who i am, what i love to do most in my life, it is my goal & drive, my passion.

I want to spread my knowledge, my experience and experiences.

I would like to leave a trace in this world, to have meant something to somebody, to my partner, my family, my friends and to YOU.

May be i am dreaming big, but i prefer to have dreams, new challenges, ... then to have none at all, and to have to say in some years, why the hell didnt I follow my dreams ... My aim with this project, is to get you inspired and motivate you to create, to make you look @ our worlds' beauty, our biggest source of inspiration, to learn you to play with colors, ... I want you to try different techniques, explore new possibilities, expand your creativity, take risks, to relax, to look after yourself, to challenge yourself, ... to find your balance in life.

INSPIRATION ONLINE CLASS

is GREAT NEWS for YOU:

What kind of inspirational tasks will you get ?

During 12 months I will give you inspirational assignments
 based on subjects, texts, photos, ideas, ...

 least you will have to fulfil some tasks, collect documentation,
 ideas, ... give feedback, express your ideas, your thoughts, your
 solutions, your proposals, your advice to others too, ...

How much time will you need to consider?

I guess timewise you would need 1 or 2 days a month to fulfil each challenge, but this is really very much up to you, you choose how much time & effort you want to invest in each assignment.

You will have to plan the time to focus though, to get into the habit to regularly make time to develop your curiosity, your senses, your craft and art, your creativity. When you sign in, it has of course got to be your intention to give and get your input, if not for me, at least for the other participants too, but in the first place for yourself, to find your balance in life.

Time is too short not to enjoy it and not to do the things you like.

Who is this meant for ?

crafters & artists - beginners to advanced
some Powertex and/or Mixed Media notice is recommended
everybody is welcome

If you are looking for precise step by step instructions, then you might be more interested in the separate technique e-books which will be made available step by step from October 2017 onwards - be aware these have a totally different content and purpose.
